(if you have got already HomCloud App on your mobile and an Homcloud Account go to Part 2 - Plug Configuration).

a. Download HomCloud App from App Store or Google Play or scan QR code below.

b. Enter the register/login interface and register with your country area code and phone number/email address.

c. Wait a few minutes for verification code (by email or text message) and enter it where required along with a password. (between 6 and 20 numbers and letters)

Part 2 : Plug configuration

a. Connect your mobile device to a 2.4 GHz Wi-Fi Network and launch HomCloud App.

b. Plug in Smart Wi-Fi Plug into any outlet.

c. Press and hold On/Off button for 5 seconds until the blue wi-fi indicator light rapidly blinks.

d. On the HomCloud homepage tap "add device" or the icon "+". After that tap "Smart plug" on the Wi-Fi smart devices list.

e. Tap "Confirm indicator rapidly blinks".

f. Insert or confirm Wi-Fi network name and password.

g. Wait for configuration successfully then tap "Done".

h. Rename Smart Plug and choose room name if you wish to.

Please visit **www.homcloud.com/config** for more info regarding the functions of the Wi-Fi Smart Plug.

Part 3 : Integration with Google Home and Amazon Alexa

Download and install Google Home or Amazon Alexa App for mobile and control your devices with your voice with Smart Speakers* or directly with your smartphone.

Important: If you want to link HomCloud App to Google Home or Alexa App you need to select **"Smart Life"** App between the list of Google Home or Alexa partners. (after that passage the user will be automatically direct to HomCloud App).

Please visit **www.homcloud.com/config** for more support.

* Smart speakers to be bought separately.

FAQ

1. **What should I do if I can't configure the smart plug?**
   Make sure your mobile and smart plug are on the same 2.4 Ghz Wi-Fi network.

2. **Which device can I control with the smart plug?**
   You can control lights, fans, humidifiers, portable heaters, coffee maker and any small appliances in accordance with smart plug's parameters.

3. **What happens if the Wi-Fi goes off?**
   You can still control smart plug manually with on/off button and once Wi-Fi is active again smart plug will connect automatically to your Wi-Fi network.
