Download and Registration

Homcloud is available for both iOS and Android OS

a. Download Homcloud App from Store or Google Play or scan QR code

below.

b. Enter the register/login interface and register with your country area code

and phone number/email address.

c. Wait a few minutes for verification code (by email or text message) and

enter it where required along with a password (between 6 and 20 numbers

and letters).

Set up router

The router supports the 2.4GHz WiFi (doesn't support the 5GHz), and is connected to the WiFi network.Please set the parameters of the router before connecting the WiFi network, and record the SSID and password of your WiFi.

Open the Homcloud App, click "My" >> "Home Management" >> "Create a home", and you can customize the home name and related settings (optional).

Click "Add Device" or "+", and then select "Doorbell 15" or any other "Smart Camera" icons to add camera.

3 Power on and reset doorbell until the status indicator is flashing quickly. or a prompt tone is heard, and then click "Next". Then input your WiFi's passwords and click "Next".

Remember to power ON the doorbell with the switch on the back part of the doorbell.

Click "_ " to change network if you wish.

Note:

- 1) Camera only supports 2.4GHz WiFi network.
- 2) The number of bits in the ssid and passwords of the router

should not exceed 24 diaits.

In this interface, you should scan the QR code in your phone with the camera,when the camera comes out "dong dong dong". And you can complete the configuration about 30s.

QR Code Configuration

5 When connecting, you should make sure your router, mobile, and camera are as close as possible. When camera added successffully, click "Z" vou could also DIY the camera's name.

Switch to Full HD resolution (SD is Standard Resolution).

രി Fotografia

Take a snapshot (it will be saved on your smartphone).

Activate smartphone microphone and speak through camera.

Record a part of a video (it will be saved on smartphone).

Play recorded video on SD card.

Access cloud recordings (extra service).

QR Code Configuration

In "Smart Camera" interface, click "Z", you can set the camera common functions.

Specifications

- Homcloud code: ME-DB15
- Model No: Doorbell 15
- Power: DC 5V/1A, AC 12V-24V.
 - Battery 6700mah lithium inteor.
- Resolution: 2Mp. 1920(H)*1080(V)
- IR Distance: 8m

- Waterproof grade: IP54 waterproof
- Working temp: -20° C 50° C
- View Angle: 130°
- Dimension: 57x145x41 mm
- PIR Detection max distance: 7m
- Lens: 3.2mm@F2.0, 130°
- Wireless chime: yes, optional

- Wi-Fi standard
 - Wifi standard: 2.4G ~ 2.4835 GHz wifi (IEEE802.11b/g/n)
 - Channel bandwidth: Support 20/40MHz

Smart Life Dunie
Your Devices
Alexa is looking for devices.
Device discovery can take up to 20 accends. If you have a Philips Hae bridge, please press the batton located on the bridge and then add your devices again.

- Q: The device cannot be previewed properly?
- A: Check whether the network is normal, you can place the camera close to the router, and if not, it is recommended to reset the device and add it again.
- Q: Why is it still in the list of devices after reseting?
- A: The reset device only resets the network configuration of the camera, but cannot change the configuration on the App, remove the camera, and must be deleted by the App.
- Q: Why doesn't the device identify the SD card?
- A: It is recommended to plug in SD card after power cut. Confirm whether the SD card is normally available and the format is FAT32. And the TF card can't be identified when the internet environment is not good.
- Q: Why I can't get the notifications with my cell phone App?
- A: Please confirm that the App has been running on the phone, and the relevant reminder function has been opened; Message notification and authority confirmation in the mobile phone system have been opened.
