Bracket Installation

#### Download and Registration

Homcloud is available for both iOS and Android OS

a. Download Homcloud App from Store or Google Play or scan QR code

below.

b. Enter the register/login interface and register with your country area code

and phone number/email address.

c. Wait a few minutes for verification code (by email or text message) and

enter it where required along with a password (between 6 and 20 numbers

and letters).

#### Set up router

The router supports the 2.4GHz WiFi (doesn't support the 5GHz), and is connected to the WiFi network.Please set the parameters of the router before connecting the WiFi network, and record the SSID and password of your WiFi.

Open the Homcloud App, click "My" >> "Home Management" >> "Create a home", and you can customize the home name and related settings (optional).

Click "Add Device" or "+", and then select "Speed 11S Security cam" or any other "Smart Camera" icons to add camera.

n C S	

3 Power on and reset camera until the status indicator is flashing quickly or a prompt tone is heard, and then click "Next". Then input your WiFi's passwords and click "Next".

Click "=" to change network.

Note:

- 1) Camera only supports 2.4GHz WiFi network.
- 2) The number of bits in the ssid and passwords of the router

should not exceed 24 digits.

In this interface, you should scan the QR code in your phone with the camera,when the camera comes out "dong dong dong". And you can complete the configuration about 30s.

## **QR** Code Configuration

When connecting, you should make sure your router, mobile, and camera are as close as possible. When camera added successffully.click "[2]" you could also DIY the camera's name.

Enlarge the image full screen.

Turn on receiving audio.

Switch to Full HD resolution (SD is Standard Resolution).

Take a snapshot (it will be saved on your smartphone).

Activate smartphone microphone and speak through camera.

Record a part of a video (it will be saved on smartphone).

Play recorded video on SD card.

Access cloud recordings (extra service).

In "Smart Camera" interface, click "[2]", you can set the camera common functions.

- Homcloud code: ME-WCS11SPT

#### Chromecast Control

1. Tap 'Home Control' in the side menu on the Google Home app's home page, then tap '+"

Find 'Smart Life' in the list. In the new window, select your Homcloud account's region, type your Homcloud account and password, then tap "Link Now". After you assign rooms for devices, your devices will be listed in the Home Control page.

Now, you can display the live image of your smart camera through Google Chromecast.

#### Alexa Control

Note : You will need to have set up an Alexa account prior to linking your Homcloud device.

- 1. Select "Menu" and then "Skill".
- 2. Search for the app and enable it.

- 3. Log into your Homcloud account with your email address or mobile number.
- 4. Select "Discover Device" and the app will begin searching.
- 5. When successfully linked, you will see a list of connected Homcloud devices. You can now control your Homcloud devices through Alexa with your voice.

## FAQ

- Q: The device cannot be previewed properly?
- A: Check whether the network is normal, you can place the camera close to the router, and if not, it is recommended to reset the device and add it again.
- Q: Why is it still in the list of devices after reseting?
- A: The reset device only resets the network configuration of the camera, but cannot change the configuration on the App, remove the camera, and must be deleted by the App.
- Q: How to cut the camera network to another router?
- A: First remove and reset the device on the App and then configure the device again by the App.
- Q: Why doesn't the device identify the SD card?
- A: It is recommended to plug in SD card after power cut. Confirm whether the SD card is normally available and the format is FAT32. And the TF card can't be identified when the internet environment is not good.
- Q: Why I can't get the notifications with my cell phone App?
- A: Please confirm that the App has been running on the phone, and the relevant reminder function has been opened; Message notification and authority confirmation in the mobile phone system have been opened.
